

*HIGH PERFORMANCE HAZE ,
SURPRISINGLY SMART*

Z350 Series[®] Fazer

The Z-350 is the latest creation from Antari stemming from years of experience in Fazer development.

The adoption of the air pump technology not only enables the Z-350 to generate dry haze but also provides its heater with a self-cleaning function. The Z-350 comes with a larger tube of one diameter, which substantially reduces the risk of heater clogging.

An extremely low fluid consumption rate grants a full tank (1.3 liters) of the Z-350 to produce more than 7 hours of non-stop hazing at maximum output.

The new on-board DMX interface allows users smarter control of the Z-350: When a DMX signal is received, the machine powers up and starts heating up automatically. When the DMX signal is off, it automatically begins the self-cleaning process and then goes into "Sleep" mode.

The machine weighs only 8.7 kg. Being so light and compact allows the Z-350 to be transported and setup anywhere - whenever needed.

Specification

- » Power : AC 100/120 V, 230/240 V, 50/60Hz
- » Heater : 100Vac - 520W , 120Vac - 800W
220Vac - 600W , 240Vac - 730W
- » Output : 3000 cu.ft/min
- » Initial Heat-up Time : 4 min.
- » Fluid Consumption Rate : 3 ml/min. (100 % output)

- » Tank Capacity : 1.3 Liters
- » Optional Remote : Z-3 Remote
- » Weight : 8.7 kg
- » Dimensions (mm) : L 320 W 153 H 391
- » Liquid Used : Antari FLG Liquid
